Revelstoke PW 150 BL Top Crew Neck L/S 111142

Tous les produits

Our Performance Wool 150 L/S Crew Neck blends the best of both worlds to create the ultimate comfort in a versatile baselayer. Combining Merino wool's natural performance properties and powered by Nuyarn's patented Merino wool technology, we have crafted this baselayer to be stronger (due to the nylon core), warmer (due to the 150g m/2 fabric) and to dry faster than other, conventionally spun, merino wool fabrics - this is achieved by wrapping a nylon core with super-fine Merino yarns. This unique spinning technique allows the merino yarns to behave naturally and provides an incredibly warm, and highly breathable, baselayer that is perfect for multi-activity winter usage.

Revelstoke PW 150 BL Top Crew Neck L/S 111141

Tous les produits

Our Performance Wool 150 L/S Crew Neck blends the best of both worlds to create the ultimate comfort in a versatile baselayer. Combining Merino wool's natural performance properties and powered by Nuyarn's patented Merino wool technology, we have crafted this baselayer to be stronger (due to the nylon core), warmer (due to the 150g m/2 fabric) and to dry faster than other, conventionally spun, merino wool fabrics - this is achieved by wrapping a nylon core with super-fine Merino yarns. This unique spinning technique allows the merino yarns to behave naturally and provides an incredibly warm, and highly breathable, baselayer that is perfect for multi-activity winter usage.

Material Information

Description: **EVOLUTION WARM KIDS BOTTOM**

OUTDOOR

Looking for a jacket to keep you warm AND dry during the colder winter months? Then look no further than our Ascent S-Thermic Waterproof. The lightweight matte outer fabric is fully waterproof and even has stretch properties for added comfort and mobility. The 3-point adjustable, and insulated, hood keeps you snug whilst a waterproof centre front zip and hand pockets keep out the worst of the weather. The hand pockets and inner chest pocket have brushed comfort linings to keep your hands cosy as well as protecting your smartphone's battery. Sandwiched between the outer / lining fabrics we have incorporated 60g G-Loft Eco insulation for an even distribution of warmth throughout the entire jacket Unlike other synthetic insulations G-Loft provides unparalleled breathability which, in turn, keeps you warm without ever overheating.

Ascent S-Thermic Hooded Jacket Insulated

If you are looking for a lightweight hooded insulation layer and would prefer a synthetic alternative to down then our Ascent S-Thermic Hooded jacket could be just what you need. The insulation is a unique combination of 60g G-Loft Eco which is used in the lower front body, the back, sides, arms and hood. Insulation in the front upper chest is crafted from Primaloft Thermoplume which is a synthetic alternative to down made from 100% PCR plastics. A super-soft and stretchy outer fabric allows for great air permeability in order to prevent overheating during activities. For added heat regulation an additional stretch knit fabric is placed under the arms to allow warm air to escape. The hand pockets and inner chest pocket have brushed comfort linings to keep your hands cosy as well as protecting your smartphone's battery. An adjustable hood and lower hem allows you to fine-tune the fit for optimum comfort and to keep out cold blasts of air.

Ascent N-Thermic Hybrid Jacket Insulated 528842

The cleverly crafted lightweight Ascent N-Thermic Hybrid down jacket provides core warmth for the outdoor user during the colder months. The unique engineered, and stretch, fabric construction means that there is NO stitching in any of the down baffles, this means that not only do you have greatly reduced instances of down leakage, or snagged stitching, but you also have a much stronger baffle construction meaning that the down will remain in its place for the lifetime of the garment. The down itself is ecofriendly sourced - Neokdun 750 fill-power recycled down - with a fill of 60g throughout the garment. For added heat regulation an additional stretch knit fabric is placed under the arms to allow warm air to escape. The same stretch knit fabric is also used as an inner baffle collar for a higher degree of comfort whilst the hand pockets and inner chest pocket have brushed back linings for added comfort.

Ascent N-Thermic Hooded Jacket Insulated

Tous les produits

Heading into extreme cold environments this winter? If so then our Ascent N-Thermic Hooded jacket could be the right choice for you - the heavyweight fill is perfectly suited to extreme cold environments. As with our Ascent N-Thermic Hybrid, the unique engineered, and stretch, fabric construction means that there is NO stitching in any of the down baffles, this means that not only do you have greatly reduced instances of down leakage, or snagged stitching, but you also have a much stronger baffle construction - meaning that the down will remain in its place for the lifetime of the garment. The down itself is eco-friendly sourced - Neokdun 750 fill-power recycled down - and has a generous differential fill of 160g in the body and 140g in the sleeves and hood. The hood and lower hem are adjustable for a refined fit whilst the hand pockets have a brushed back lining for added comfort and there is also an additional zipped internal security pocket for valuables.

Ascent PW 300 Mid Layer Hoody Full Zip 542652

Odlo Graphite Grey, Odlo Concrete Grey GFR, Keystyle

Tous les produits

Our Performance Wool Hoody blends the best of both worlds to create the ultimate comfort in a versatile midlayer. Combining Merino wool's natural performance properties and powered by Nuyarn's patented Merino wool technology, we have crafted this midlayer to be stronger (due to the nylon core), warmer (due to the 300g m/2 fabric) and to dry faster than other, conventionally spun, merino wool fabrics - this is achieved by wrapping a nylon core with Merino yarns. This unique spinning technique allows the merino yarns to behave naturally and provides an incredibly warm, and highly breathable, midlayer that is as at home in the mountains as it is in the city.

Ascent PW 220 Mid Layer Hoody Full Zip

Grey GFR, Keystyle Tous les produits

Odlo Gr

Our Ascent PW FZ Hoody is a great addition to your outdoor wardrobe. Crafted from a 220g m/2 merino blend (45% merino / 48% polyester / 7% elastane) you have a versatile piece of lightweight layering that can be used throughout the year in cooler conditions. All the natural benefits of wool - naturally anti-odour, highly breathable and quick drying mean that this style is as at home on the hills as it is off.

Certains produits

Ascent PW 130 Swiss Peaks T-Shirt Crew Neck

Blue Wing Teal GFR, Keystyle

Our PW Swiss Peaks printed t-shirt is a great year-round tee suited to multi-activity use. Crafted from a natural fibre mix (50% merino wool / 50% TENCEL - fabric made in Portugal), this tee benefits from the natural anti-odour and natural thermoregulation properties of merino wool, and combines with the moisture management, bacterio-static properties & fresh touch of TENCEL, not forgetting the sustainable production aspect of this fibre.

Benefits

- · Fast Drying
- · Natural Thermoregulation

Ascent Warm Pants 560462

Tous les produits

Certains produits

Our Ascent Warm Pant offers a great blend of warmth, protection and durability for those challenging winter conditions. The 4-way stretch nylon double weave (240g m/2) allows for great mobility whilst also protecting you from the elements - a brushed back finish provides warmth and a CO DWR (durable water repellent) finish keeps moisture away. Featuring two zipped hand pockets, a rear zipped pocket and a right hand thigh pocket - storage is not an issue for those essential items. Zipped lower leg gussets allow you to customise the fit depending on your choice of footwear.

Ski Cocoon S-Thermic Jacket Insulated 528752

Looking for an extra-warm ski jacket that will keep you just as toasty on the slopes as in the city afterwards? The SKI COCOON S-thermic jacket is the fusion of a puffy winter jacket with dedicated ski features to hit the ski pistes in style and confidence. It is crafted from a laminated face fabric (waterproof fabric) treated with PFC FREE DWR and with critical seams taped (hood and shoulders), that keeps you dry when the snow falls, while providing great freedom of movement thanks to the 4-way stretch. To achieve the puffy look, Thermoplume® insulation from Primaloft is used (200g body, 150g sleeves & hood), as it mimics the look & feel of down, delivers similar warmth levels, but outperforms down in wet conditions due to its hydrophobic properties. The jacket comes with specific features such as inside goggle pockets with integrated wipe, ski skirt with a garage so it can be nicely stored when not used, ski pass pocket, 3-point adjustable hood, cuff lining with thumb holes, and RECCO rescuing system. Both the face fabrics as well as the insulation are notably recycled, and the insulation is made in Europe.

Ski Bluebird S-Thermic Jacket Insulated 528762

30827 Ketchup, Orange Rust GFR, Keystyle

Tous les produits

Certains produits

Looking for an athletic looking ski jacket to hit the slopes in this winter? The SKI BLUEBIRD S-thermic jacket is crafted from a laminated face fabric (waterproof fabric) treated with PFC FREE DWR and with critical seams taped (hood and shoulders), that keeps you dry when the snow falls, while providing great freedom of movement thanks to the 4-way stretch. The high performing G-Loft insulation (80g body, 60g sleeves & hood) retains warmth while delivering optimum moisture management, even in wet conditions. The jacket comes with specific features such as inside goggle pockets with integrated wipe, ski skirt, ski pass pocket, under arm ventilating zips, cuff lining with thumb holes, RECO crescuing system, and a helmet compatible hood that ensures protection even under harsh weather. Both the face fabrics as well as the insulation are notably recycled, and the insulation is made in Europe.

Sesvenna SI Mid Layer 1/2 Zip 542442

15000 Black

The Sesvenna SL half zip midlayer is the fusion of performance with premium appeal, creating a perfect lightweight ski layering. It is crafted from a mix of a stretch and light "cotton touch" fabric, with a structured fabric, both peached inside, delivering warmth while ensuring optimal moisture management. The fabric mix is reinforced by the color blocking, creating this athletic silhouette. The functional under arm cutlines ensure great freedom of movement, while the thumb loops ensure extra warmth for your hands on cold winter days. Last but not least, both fabrics are sourced from recycled polyester.

Sesvenna SI Mid Layer Full Zip 542452

Sesvenna Hybrid S-Thermic Mid Layer Full Zip 542462

Looking for a performance yet extra-warm midlayer for your next ski session? The Sesvenna Hybrid S-thermic full zip midlayer has got what you need: the bonded fleece traps the air between the inside and outside fabric faces retaining maximum warmth, while the front panel, crafted from 40g breathable G-Loft insulation & Pertex face fabric, ensures higher protection against the wind chill. The DWR treatment applied on the entire midlayer protects against a light rain mist. Your moisture management & freedom of movement are taken care of through the side inserts, and your essentials are secured in the two zippered hand nockets.

Ski Bluebird S-Thermic Pants 560382

Tous les produits

Looking for an athletic yet warm ski pant to hit the slopes in this winter? The SKI BLUEBIRD S-thermic pant is crafted from a laminated face fabric (waterproof fabric) treated with PFC FREE DWR and with critical seams taped (gusset), that keeps you dry when the snow falls, while providing great freedom of movement thanks to the 4-way stretch. The high performing G-Loft insulation (60g) retains warmth while delivering optimum moisture management, even in wet conditions. The pant comes with specific ski features such as snow gaitor, adjustable waist, leg ventilating zippers, RECCO rescuing system, and reinforced inserts on the bottom leg. Both the face fabrics as well as the insulation are notably recycled, and the insulation is made in Europe.

Severin N-Thermic Hooded Jacket Insulated 528862

Deep Depths GFR

Our midweight Severin N-Thermic Hooded jacket strikes the perfect balance of warmth to weight. Warm enough for cold weather activities but not too warm to cause overheating. The super tough, and robust, outer fabric offers great durability whilst the matte and sheen finish creates a unique optic. The down is eco-friendly sourced - Neokdun 750 fill-power recycled down - and has a differential fill of 100g in the body and 80g in the sleeves and hood. An adjustable hood allows for an optimum fit and the hand pockets and inner chest pocket have brushed linings for added comfort. Internally, a stretch knit fabric is used as an inner baffle collar for a higher degree of comfort, great for keeping out cold wind and spindrift.

Ascent S-Thermic Waterproof Jacket Insulated 528821

Ascent S-Thermic Hooded Jacket Insulated

If you are looking for a lightweight hooded insulation layer and would prefer a synthetic alternative to down then our Ascent S-Thermic Hooded jacket could be just what you need. The insulation is a unique combination of 60g G-Loft Eco which is used in the lower front body, the back, sides, arms and hood. Insulation in the front upper chest is crafted from Primaloft Thermoplume which is a synthetic alternative to down made from 100% PCR plastics. A super-soft and stretchy outer fabric allows for great air permeability in order to prevent overheating during activities. For added heat regulation an additional stretch knit fabric is placed under the arms to allow warm air to escape. The hand pockets and inner chest pocket have brushed comfort linings to keep your hands cosy as well as protecting your smartphone's battery. An adjustable hood and lower hem allows you to fine-tune the fit for optimum comfort and to keep out cold blasts of air.

Ascent N-Thermic Hybrid Jacket Insulated 528841

Tous les produits

The cleverly crafted lightweight Ascent N-Thermic Hybrid down jacket provides core warmth for the outdoor user during the colder months. The unique engineered, and stretch, fabric construction means that there is NO stitching in any of the down beffles, this means that not only do you have greatly reduced instances of down leakage, or snagged stitching, but you also have a much stronger baffle construction meaning that the down will remain in its place for the lifetime of the garment. The down itself is eco-friendly sourced - Neokdun 750 fill-power recycled down - with a fill of 60g throughout the garment. For added heat regulation an additional stretch knit fabric is placed under the arms to allow warm air to record. The same stretch knit fabric is placed under the arms to allow warm air to escape. The same stretch knit fabric is also used as an inner baffle collar for a higher degree of comfort whilst the hand pockets and inner chest pocket have brushed back linings for added comfort.

Ascent N-Thermic Hooded Jacket Insulated

10697 GFR, Keystyle

Dark Sapphire GFR

Heading into extreme cold environments this winter? If so then our Ascent N-Thermic Hooded jacket could be the right choice for you - the heavyweight fill is perfectly suited to extreme cold environments. As with our Ascent N-Thermic Hybrid, the unique engineered, and stretch, construction means that there is NO stitching in any of the down baffles, this means that not only do you have greatly reduced instances of down leakage, or snagged stitching, but you also have a much stronger baffle construction - meaning that the down will remain in its place for the lifetime of the garment. The down itself is eco-friendly sourced - Neokdun 750 fill-power recycled down - and has a generous differential fill of 160g in the body and 140g in the sleeves and hood. The hand pockets have a brushed back lining for added comfort and there is also an additional zipped internal security pocket for valuables.

Material Information

Description: MERINO 200 SOLID Main Fabric: 100% Virgin Wool (Merino)

Ascent Warm Pants 560461

Our Ascent Warm Pant offers a great blend of warmth, protection and durability for those challenging winter conditions. The 4-way stretch nylon double weave (240g m/2) allows for great mobility whilst also protecting you from the elements - a brushed back finish provides warmth and a C0 DWR (durable water repellent) finish keeps moisture away. Featuring two zipped hand pockets and a right hand thigh pocket storage is not an issue for those essential items. Zipped lower leg gussets allow you to customise the fit depending on your choice of footwear.

Looking for an extra-warm ski jacket that will keep you just as toasty on the slopes as in the city afterwards? The SKI COCOON S-thermic jacket is the fusion of a puffy winter jacket with dedicated ski features to hit the ski pistes in style and confidence. It is crafted from a laminated face fabric (waterproof fabric) treated with PFC FREE DWR and with critical seams taped (hood and shoulders), that keeps you dry when the snow falls, while providing great freedom of movement thanks to the 4-way stretch. To achieve the puffy look, Thermoplume® insulation from Primaloft is used (200g body, 150g sleeves & hood), as it mimics the look & feel of down, delivers similar warmth levels, but outperforms down in wet conditions due to its hydrophobic properties. The jacket comes with specific features such as inside goggle pockets with integrated wipe, ski skirt with a garage so it can be nicely stored when not used, ski pass pocket, 3-point adjustable hood, cuff lining with thumb holes, and RECCO rescuing system. Both the face fabrics as well as the insulation are notably recycled, and the insulation is made in Europe.

Ski Bluebird S-Thermic Jacket Insulated

Descent PW 300 Mid Layer 1/2 Zip 542661

Tous les produits GFR **Certains produits**

Our Performance Wool 1/2 Zip blends the best of both worlds to create the ultimate comfort in a versatile midlayer. Combining Merino wool's natural performance properties and powered by Nuyarn's patented Merino wool technology, we have crafted this midlayer to be stronger (due to the nylon core), warmer (due to the 300g m/2 fabric) and to dry faster than other, conventionally spun, merino wool fabrics - this is achieved by wrapping a nylon core with Merino yarns. This unique spinning technique allows the merino yarns to behave naturally and provides an incredibly warm, and highly breathable, midlayer that is as at home in the mountains as it is in the city.

Black Melange

The Sesvenna full zip midlayer is the cornerstone to creating lightweight ski layering. Crafted from a stretch and light "cotton touch" fabric, which is peached inside, this layer holds warmth and ensures optimal moisture management. Essentials are secured in the two zippered hand pockets and you have unrestricted movement thanks to the functional under arm cutilnes. The fabric is recycled, and the double dyed structure gives a great look, reinforced by the colour choice of the season.

Besso Mid Layer 1/2 Zip 542471

The Besso half zip is an essential piece for your ski wardrobe: crafted from a stretch & soft fabric, brushed inside, it holds warmth while ensuring good moisture management. The bi-colored neck zip adds a valuable touch to your look.

Halden S-Thermic Parka 528791

B

Want to look sleek in the winter while staying warm? The Halden S-Thermic Parka is the perfect fusion of functional fabrics and features with city appeal. The jacket consists of a matte 4-way stretch face fabric, ensuring a great freedom of movement, while the 6-Loft insulation (120g body, 80g slees & hood) retains warmth and delivers optimum moisture management, even in wet conditions. Thanks to the laminated face fabric (waterproof fabric) and the PFC FREE DWR treatment, the jacket can withstand some rain and snow. The adjustable (velcro) insulated hood adds extra protection against the elements, and the internal cuff lining ensures wind and water don't come in. Your essentials are secured in the two zippered hand pockets and inside zippered pocket, while the adjustable waistband allows you to create your desired silhouette. Last but not least, both the face fabric & the insulation are sourced from recycled polyester.

Halden Cosy Mid Layer Full Zip

20731 Dark Sapphire GFR

30824

ECO WE CARE, WE ACT.

Looking for a retro outdoor classic piece with a modern twist, to keep you toasty during your winter leisure times? The Halden Cosy full zip midlayer is crafted from a recycled deep pile sherpa fleece, retaining maximum warmth, and combined with woven stretch panels on the front, shoulders and upper back providing durability while creating contrast. The adjustable hem protects you from the wind chill, and your essentials are secured in the two zippered hand pockets.

Run Easy S-Thermic Short

15000 Black

SPERTEX' CONTENT

Following the success of its predecessor we've endeavoured to only make improvement where needed. The G-Loft insulation now uses recycled material while still giving high levels of lightweight insulation in the front portion of the short. We've used recycled stretch melange fleece to reduce weight and increase breathability on the rear portion of the short. There's an external drawcord on the waistband, reflective print and a zippered pocket. Wear this short over your tights for warmth and protection from the cold.

LIGHT SOFT STRETCH FRENCH TERRY Description:

Zeroweight Waterproof Jacket 313701

B

The Zeroweight waterproof jacket is crafted from a 2.5 layer fully recycled material with a 10,000mm water column, a 10,000 MVP rating and weighing in at only 210 grams in Women's size large. This jacket is fully seam sealed with a waterproof zipper and an adjustable runners fit hood with rain visor. On the adjustable great features the jacket packs away into its own hood, has reflective details, adjustable fit and hood stowage system. Whether you're pounding the streets or flying along the trails, this jacket has got

Axalp Ceramiwarm Mid Layer 1/2 Zip 313551

Whether you're tearing up the trails or flying through the streets, this AXALP 1/2 zip midlayer fits the bill. Body mapped warmth and breathability combining brushed Ceramiwarm fleece on the front and Zeroweight Ceramiwarm fabric on the rear and side of the midlayer. With two stretch mesh pockets, abrasion resistant prints on the shoulder area, reflective details, thumb holes and an athletic fit this midlayer is fully loaded.

Axalp Trail T-Shirt Crew Neck S/S 1/2 Zip 313901

60279 Black, Polynya

The Axalp trail is our most technical and versatile tee shirt in the range. Crafted from our lightest, most breathable fabrics it's built for high performance on the trails. We've placed our Chilltee fabric on the front and side of the garment and complimented it with a lightweight stretch mesh on the upper rear section to provide even more ventilation under your trail pack, ensuring maximum cooling and warm wather running comfort. Add in reflective details and bonded side seams with extra laser cut ventilation and stretch mesh pockets to complete this high performance package

Axalp Winter Tights 322831

The main fabric is a brushed power stretch fleece with a light DWR water resistant coating. Multiple storage options include a stretch mesh tunnel for your jacket, 1 zip pocket and 2 stretch mesh pockets. For extra comfort and safety on those long runs, we've added a bonded waistband with external drawcord and multiple reflective details. Whether you're tearing up the trails or flying through the streets, these AXALP winter tights do the job.

LIGHT WEIGHT PLAIN WOVEN RECYCLED

Dual Dry Waterproof Jacket 313021

ھ

This ISPO Gold Award winning waterproof jacket with ODLO Dual Dry Technology is designed for demanding athletes who want the ultimate balance between protection and breathability. With a 20,000mm water column, 50,000 MVP breathability and weighing only 136 grams in size large, it is the market leader in featherlight, waterproof running jackets. 360 reflectivity, fully seam sealed, waterproof zipper, and an adjustable running fit hood with rain visor complete this high performance package. Running in the rain was never this good. Please note due to the ultra light fabric it is not recomended to wear this product with a backpack.

Zeroweight Pro Warm Jacket 313191

ODLO Pro series is crafted for the demanding athlete. This fully softshell jacket has the features you need to keep running whatever the weather. The lightweight, windproof, water resistant, 4 way stretch fabric has body mapped ventilation zones, 360 degree reflectivity and zipped pockets. High stretch internal seleves hold in the heat with a built in watch window for when you need to check your performance. The front zipper has a magnetic collar fastener to allow extra ventilation via the zipper while keeping the collar in place as you crank up the pace.

Zeroweight Warm Hybrid Jacket

21007 30810 Blue Wing Teal, Festival Fuchsia Polynya

Zeroweight Warm Vest

Blue Wing Teal, Polynya

The Zeroweight warm vest combines softshell protection with a high stretch jersey back panel, to create the ideal mid season layering piece when combined with one of our performance midlayers. The lightweight, windproof, water resistant, 4 way stretch fabric has body mapped ventilation zones, reflective details and a zip pocket.

Zeroweight Engineered Chill-Tec T-Shirt Crew 313731

ODLO

10753 Stone Grey Melange

The design team at ODLO have engineered a mesh graphic into this lightweight polyester melange fabric, not only creating a great looking tee, but the mesh graphic is highly functional. Ensuring a high level of breathability and allowing air currents to pass over the skin creating cooling by convection. The engineers of active layers have added bonded hems on the sleeves and bonded tapes along the side seams with laser cut ventilation. With a regular fit and reflective details, this is a great looking, highly functional tee built for runners looking for something special.

Zeroweight Tights

20592 Blue Wing Teal

Our Zeroweight tight is a full length tight crafted from recycled polyester, ideal for training on cooler days and offering a medium level of support. Material Information

Description:

LIGHT WEIGHT PLAIN WOVEN RECYCLED

Designed for demanding athletes, the Zeroweight warm pants utilize a lightweight, windproof, water resistant, 4 way stretch softshell fabric on the front upper leg. The rear and lower part of these pants use our super lightweight 4 way stretch woven fabric. The knee area is crafted for maximum freedom of movement and breathability. There are bonded side seams and a waistband with an integrated drawcord, combined with multiple storage options and reflectivity this tight is your ideal running partner for cold, inclement weather.

Zeroweight 3 Inch Short 322941

15000 Black

The Zeroweight 3 inch short is designed for runners who see zero distraction as a given on this high performance product. We've crafted these shorts from our proven, super lightweight, recycled, 4 way stretch woven fabric. We've added an adjustable waistband, zippered rear pocket, laser cut ventilation, reflective details and bonded seams on the leg openings. This short does not have an inner brief and is designed to combine perfectly with our active sport liner as an extremely lightweight training short for those warm weather runs.

Versatility and functionality are the Brensholmen jacket's main attributes. It is constructed with a fully windproof and water resistant softshell material in the front and a light, breathable jersey in the back that perfectly combines weather protection and moisture management on the cross country slopes. Two zippered hand pockets and reflective elements make this also an ideal running style on cold and dark winter days.

It does not get any lighter than this! The windbreaker pants is the perfect protective piece to wear over tights or a baselayer bottom if you prefer wearing several layers instead of one heavier pant. The 3/4 length zippers allow you to easily put the windbreaker on and take it off over your boots and thanks to the light woven material you can easily pack the pants into your drink belt.

Versatility and functionality are the Brensholmen jacket's main attributes. It is constructed with a fully windproof and water resistant softshell material in the front and a light, breathable jersey in the back that perfectly combines weather protection and moisture management on the cross country slopes. An elastic waistband with a drawcord, two zippered hand pockets and a silicone gripper on the leg opening enhance your comfort on the slopes.

S-Thermic Vest 612582

ھ

Choosing what to wear in changing weather on the cross country slopes is not an easy task. The light, G-Loft insulated and windproof S-Thermic vest can easily be packed in your drink belt and offers optimal protection from wind and cold temperatures. This vest is also perfect for warming up before or cooling down after a more intense session on the skis.

S-Thermic Short 622532

SPERTEX' SIZE The unisex S-Thermic shorts are a truly protective piece on cold days on the cross country slopes. Ideally worn over tights, they can quickly be put on or taken off without taking your skis off thanks to the full zippers on both sides. The shorts are made with a 60g/m2 G-Loft padding, protecting you from the weather, while keeping the shorts light and packable. A zippered back pocket is perfect to carry small valuables with you.

Silsand Jacket 612562

ھ

The Silsand jacket covers all your needs on the cross country slopes or on your ski tour with style. Its water resistant, windproof, but highly breathable outer shell is lined with a 200g/m2 Merino wool fabric for extra warmth and comfort. Additionally, the Silsand jacket comes with zippered ventilation on the sides that can be opened or closed depending on your warmth level. The spacious, G-Loft insulated chest pocket extends the battery life of your cell phone even on the coldest days.

Langnes Jacket 612572

20835 Dark Sapphire, White Keystyle

You enjoy testing your limits on the cross country slopes and are excited about intense workouts. The Langnes jacket is the perfect jacket for you in cold weather. The lightweight, but fully windproof soft shell fabric protects you from the elements, while the sleek, laser cut ventilation on the back allows your body heat to escape. Your valuables can easily and safely be stored in the big, zippered hand pockets.

Engvik Jacket 612592

Engvik is a small coastal town on Northern Norway's west coast and the perfect namesake for this beautifully designed cross county jacket. It is fully windproof and keeps you warm in inclement winter weather, but it is also lightweight and highly breathable due to the laser cut jersey insert on the back. The two zippered hand pockets keep your wallet and phone secure during your activity.

Markenes Jacket 612642

The Markenes jacket is characterized by its sleek design with bonded seams, hidden zippered side pockets and perforated mesh on the upper back. The wind and water resistant softshell material on the front and lower back makes it an ideal cross country jacket for temperatures just below freezing or for harder sessions in even colder weather.

Ceramiwarm Tights 622482

These elegantly crafted winter tights give you lots of freedom of movement and still keep you warm in cold conditions thanks to the brushed fabric on the front and the actively warming ODLO Ceramiwarm material on the back. The small calf zippers allow you to easily put the tights on and take them off, yet you can still tuck them into your boots without feeling the zippers rubbing on your ankles. The zippered pocket on the right hip is ideal to carry your phone or keys on the slopes.

Silsand Pants 622472

The Silsand pants cover all your needs on the cross country slopes or on your ski tour with style. Its water resistant, windproof, but highly breathable outer shell is lined with a 200g/m2 Merino wool fabric for extra warmth and comfort even in extremely cold winter temperatures. The 3/4 length side zippers allow you to take them off while keeping your boots on. The zippered and secure hand pocket on the right is ideal for carrying a phone or other valuables.

Engvik Pants 622492

Langnes Pants

You enjoy testing your limits on the cross country slopes and are excited about intense workouts. The Langnes pants are the perfect pants for you in cold weather to pair with the Langnes jacket. The front upper panel is crafted from a fully windproof & water resistant fabric, protecting you from the wind chill, while the brushed inside keeps you warm during your winter workouts. The adjustable waistband with silicone gripper elastic keep these pants in place and there is a compact zipped pocket for small essential items.

Versatility and functionality are the Brensholmen jacket's main attributes. It is constructed with a fully windproof and water resistant softshell material in the front and a light, breathable jersey in the back that perfectly combines weather protection and moisture management on the cross country slopes. Two zippered hand pockets and reflective elements make this also an ideal running style on cold and dark winter days.

S-Thermic Vest 612581

ھ

Choosing what to wear in changing weather on the cross country slopes is not an easy task. The light, G-Loft insulated and windproof S-Thermic vest can easily be packed in your drink belt and offers optimal protection from wind and cold temperatures. This vest is also perfect for warming up before or cooling down after a more intense session on the skis.

S-Thermic Pants 622521

The S-Thermic pants for women combine warmth, weather protection, style and versatility in an optimal way. The water and wind resistant 360 degree insultation with 60g/m2 G-Loft padding keeps you warm, dry and comfortable on the coldest winter days. These pants can quickly be taken off or put on over the XC boots thanks to the 3/4 length zipper. The sleek, modern design and the two hand pockets also make it an ideal sideline piece to cheer on your favorite skiers at the Holmenkollen festival.

Silsand Jacket 612561

ھ

The Silsand jacket covers all your needs on the cross country slopes or on your ski tour with style. SOCKS MICRO CREW - RUN Description:

Ceramicool Run Socks Crew 763740

This CERAMICOOL running socks offer a bodymapped padding system for enhanced comfort and cushioning. Thicker and softer material on the heel and toe areas help reduce the impact of each step, protecting against blisters while the breathable mesh material and the Ceramicool yarns keep your feet cool and wick sweat away. Integrated and very functional Polypropylene yarn is resistant to absorbing moisture and therefore ensures a very fast drying pair of socks. The seamless toe construction gives the socks an optimal fit while the integrated ODLO ZeroScent anti-odour technology controls and eliminates bad odour from its very beginning. Finally, the socks are made and crafted in EUROPE.

THE KEY TO PHYSICAL COMFORT AND ENHANCED PERFORMANCE

3 OUTER LAYER

PROTECTS
YOU FROM THE
ELEMENTS

MID LAYER INSULATES AND KEEPS YOU WARM

BASE LAYER KEEPS YOU DRY, COOLS WHEN HOT, INSULATES WHEN COLD

The Art of Layering

It's what's inside. What you choose to wear, from your sports underwear through to the outer layer will directly impact your performance and well-being during your next sporty adventure on colder days.

The number one mistake consumers make is wearing too many layers. By loading up on clothing and sweating through the garments, you ultimately feel clammy and miserable.

ODLO's latest innovation "Advanced Microclimate Management" addresses this and is the ultimate solution to physical comfort.

The right layering system offers, no matter what the conditions, an optimal micro climate that manages both body heat and moisture between the different layers, so that sport enthusiasts stay warm and dry all day long. Through their elaborate mix of functional materials and innovative technologies, ODLO's inner layers deliver a perfect balance of breathability, flexibility, insulation and warming properties. Perfect Microclimate Management, achieved through ODLO's advanced layers that complement each other, which will make you feel comfortable and perform better. Will you make the inside count on the outside?

SPORTS UNDERWEAR CONCEPT OVERVIEW

PERFORMANCE

ACTIVE SPINE LIGHT

ACTIVE SPINE WARM's little sister is a lightweight base-layer which helps you to perform at your best. A printed posture-control frame around the shoulders ensures that you straighten up naturally during your training. The improved posture allows you to enjoy better breathing and reduces any muscle fatigue, which will lend you more power for your performance.

BLACKCOMB

Stylish, tailored and multi-functional, the Blackcomb range, worn next to the skin, keeps you warm, protected and sweat free whether skiing or during whatever other activities you undertake in the great outdoors. Comfort across a wide range of body movements is fully assured through the use of seamless knitting technology, whilst a number of clever 'zones', which feature different properties, have been strategically incorporated into the design to optimise ventilation and provide superior moisture management.

PERFORMANCE WARM

PERFORMANCE WARM is the best performance sports underwear, bar none, and, as the name says, it is "made to perform". The Performance Warm line is also built using the Organic Bodymapping principle, which guarantees optimum temperature regulation and freedom of movement. The line features incomparable sweat wicking and quick-drying characteristics. This makes it the first choice for performance sports on cool days. The athletic design of the Performance Warm line perfectly reflects the Organic Bodymapping approach.

PERFORMANCE LIGHT

PERFORMANCE LIGHT, with its seamless construction and integrated bodymapped functional zones, provides maximum breathability and the best moisture wicking properties where it is needed. It is the right choice for fluctuating temperatures and demanding physical activities – a versa-tile range of performance sports underwear that can be worn all year round.

ACTIVE

ACTIVE EVERYDAY

Performance Underwear is becoming ever more important as many people like to use it for everyday wear and not just during physical activity. ODLO is responding to this trend with a year-round line: Active Everyday. With it, men are getting particular attention from ODLO in this new collec-tion on the topic of support. In this underwear line that is versatile for both sport and everyday wear, ODLO is provid-ing the "Happy Balls" concept. This underwear uses a special pouch technology that provides extra support and keeps everything fresh thanks to a cooling layer in the lower pouch area. The lady bottoms are invisible underneath your tights and make panty lines a thing of the past.

ACTIVE WARM

ODLO's ACTIVE WARM sports underwear range, also known as the Originals, has been a customer favourite for decades. ACTIVE WARM is ideal for all low- to medium-in-tensity sports and offers good insulation against the cold. Soft stitching and a fleecy brushed interior provide maximum comfort and a very soit handfeel. Its optimum mois-ture management and fast drying properties mean you stay pleasantly warm and dry, even when the weather turns colder.

ACTIVE WARM Originals

The Heritage range provides the same comfort as the Active Warm. It combines a super soft handfeel, optimal thermal insulation and fast drying properties with a touch of ODLO Heritage in terms of design.

ACTIVE X-WARM

ACTIVE X-WARM has been designed to provide excellent insulation, even when temperatures plummet. Soft insula-tion pads are integrated into the garments to ensure that particularly exposed, sensitive areas of the body are pro-tected from the cold. Its excellent moisture management properties guarantee you stay warm and dry at all times.

ACTIVE LIGHT (F-DRY)

ODLO F-dry is an all-around quality sports baselayer which is suitable for a wide range of activities. It is charac-terised by outstanding moisture management and the highest wearing comfort. F-Dry will keep you dry and comfortable 365 days a year. The polypropylene on the inside of the fabric and the polyester on the outside create a push-pull effect. The polypropylene can't absorb any moisture and so pushes it to the outside, where it evaporates and creates a comfortable cooling sensation. The super soft fabric is equipped with a bio-based finish made from organic and recycled components.

NATURAL

NATURAL + KINSHIP WARM

NATURAL (+) KINSHIP WARM is a must for environmentally conscious sports enthusiasts that like to stay comfortably cosy. The unsurpassed comfort is attained by the super soft fabric quality with 50% extra fine

merino wool. This allows the fabric to hug your skin smoothly. The blend of performance and natural fibres has an odour-resistant function and regulates body temperature optimally - no matter if the day is cold or warm. NATURAL (+) KINSHIP WARM likewise boasts a highly sophisticated seamless jacquard weave construction. This means the design is not printed on the fabric, but is achieved through the seamless knit technology. The design of the NATURAL (+) KINSHIP line has been inspired by ODLO's Norwegian roots. ODLO has picked up a Scandinavian knit pattern and re-interpreted it to create a subtle, modern look.

NATURAL 100% MERINO WARM

ODLO 100% Merino is the 200g, all-year-round, quality material for nature lovers. It stands out thanks to its natural body temperature control and anti-odour properties. The super fine 17.5 Micron quality is currently the finest 100% Merino wool available on the market. These fine fibres adapt to the shape of the skin and create an ultimately soft and soothing sensation.

NATURAL + LIGHT

ODLO Natural + Light is a collection created from a mix of two natural materials, both plant and animal fibres. Firstly, our 100% guaranteed mulesing-free origin Merino Wool – at 17.5 Microns provides the garments with body temperature control and natural anti-odour properties. Secondly, we have incorporated Tencel into this collection, whose natural fibres come from the wood pulp of Eucalyptus. It is the most environmentally-friendly fibre originating from plants. The length of these fibres gives the material a soft and silky feel. A first layer that becomes a natural second skin.

REVELSTOKE PERFORMANCE WOOL

Traditional wool fabric is knit from single ply yarns in which wool fibers are drawn into fine strands and twisted together for strength. NuYarn eliminates yhe twist in the yarn. Fibers are placed around a core at a parallel orientation, and draw out into a super fine fiber with zero twist. NuYarn uses a nylon core for added strength, hidden inside the fine merino-wrapped fiber. This super fine fiber is then doubled up to create strong two-ply-yarns to be knitted into fabric. The resulting merino outperfoms the world's best ringspun merino fabrics in almost every performance metric.

TEMPERATURE CONTROL SYSTEM (TCS)

X-LIGHT

X-LIGHT

Keeps the body cool and dry. Breathable, extremely lightweight sportswear for warm temperatures and intense activities. The x-light underwear is defined by high-moisture wicking and quick drying properties.

LIGHT

LIGHT

Light provides optimum comfort in all situations and in all weather conditions throughout the entire year. High elasticity and fast drying distinquish ODLO's light underwear.

WARM

WARM

Highly functional sportswear with excellent thermal insulation that keeps the body warm when it's cold outside. With the fabric's effective moisture wicking properties, the skin is kept dry and warm. Warm thermal quality is ideal for all winter activities.

X-WARM

X-WARM

Sports clothing for extreme cold: Extra-warm [X-Warm] inserts protect sensitive areas of the body at very cold temperatures. Good moisture wicking ensures additional comfort when wearing.

MEMBERSHIP

FAIR WEAR FOUNDATION

When ODLO joined the Fair Wear Foundation (FWF) in 2008 it was the first company specializing in functional clothing to become a member. The FWF is committed, as an independent non-profit organization, to the improvement of working conditions in the garment industry throughout the world. With the help of factory audits (social audits) and a complaint procedure, corporate audits (management system audits) of their members, and through extensive consultations with stakeholders in the manufacturing countries, the FWF verifies whether companies comply with the established code of conduct.

TESTED FOR HARMFUL SUBSTANCES

OEKO -TEX 100

ODLO's Functional Underwear bears the Oeko-Tex® label "Confidence in Textiles", which certifies textiles tested for harmful substances in accordance with the Oek-Tex Standard 100. Our product meets the current human-ecological requirements: no carcinogenic ingredients, no formal-dehyde, free of allergy-causing dyes, skin-friendly pH value.

PACKAGING

THE GREEN DOT

All of ODLO's underwear packaging is marked with the "Green Dot" and is, thus, completely recyclable.

LABELS

ODLO TECHNOLOGIES

COOLING

CERAMICOOL

CERAMICOOL

CERAMICOOL is an active cooling technology, which cools your skin temperature by up to 1°C and facilitates optimal physical performance during your activity.

LINENCOOL

LINENCOOL

LINENCOOL offers better moisture management and cooling properties than other natural blends. The smooth and cozy touch keeps you comfortable while doing sports in hot weather conditions.

WARMING

CERAMIWARM

CERAMIWARM

CERAMIWARM is an active warming technology, which warms your skin by up to 3°C by using ambient heat and your own body's energy. It is characterized by high wearing comfort and ultimate lightness.

YAKWARM

YAKWARM

ODLO YAKWARM offers better moisture management and warming properties than other natural blends. Due to the high natural content, it also prevents the build up of unpleasant odours.

MOISTURE

F-DRY

F-DRY

ODLO F-DRY is the all-around quality Sports Underwear, suitable for a wide range of activities and characterized by outstanding moisture management and the highest wearing comfort. F-DRY will keep you dry and comfortable 365 days a year.

INSULATION

N-THERMIC

N-THERMIC

NATURAL - THERMIC utilizes natural insulation combined with lightweight fabrics for a perfect microclimate by leveraging the properties of the natural materials for perfect thermoregulation.

S-THERMIC

S-THERMIC

SYNTHETIC - THERMIC utilizes synthetic insulation combined with extremely breathable fabrics for a perfect microclimate by transporting excess heat and moisture to the outside.

I-THERMIC

I-THERMIC

A battery powered innovation utilizing an intelligent thermo technology that knows how and when to keep you warm, using thermal sensors and automated heat adjustment where the heating areas are fully integrated into the knitting construction.

COMPRESSION

ACTIVE SPINE

ACTIVE SPINE

The ODLO patented posture technology that provides spinal stability by aligning the shoulders, spine and torso. It combines advanced biomechanics and industry-leading knitting technology to deliver an active posture system inspired by the natural function of the human spine.

MUSCLE FORCE +++

MUSCLE FORCE

A unique compression with seamfree integrated functional zones delivers improved blood and oxygen circulation and reduces muscle vibration by 42%.

SUPPORT

HAPPY BALLS

A special pouch technology that provides extra support and keeps everything fresh thanks to a cooling layer in the lower pouch area.

PROTECTION

WINDSHIELD

PERFORMANCE WINDSHIELD SUW provides performance conscious athletes protection and comfort in intense headwind-facing sports.

LOGIC WINDPROOF

Effective protection against wind-chill. Depending on the wind speed, the perceived temperature can often be significantly lower than the measured external temperature. *LOGIC WINDPROOF* from ODLO reduces the effects of wind-chill. This material is extremely breathable, windproof and water repellent.

LOGIC WATERPROOF

Protects against rain, wind and weather. The innovative material technology in *LOGIC WATERPROOF* effectively protects the body like a third layer from external influences. The material is waterproof, windproof and breathable.

ODLO ZEROSCENT

Counteracts the unpleasant smell of sweat. The functional treatment effect, silver ions applied to the material, stops the multiplication of bacteria and effectively prevents unpleasant odors. The effect is completely skin-compatible, durable and offers optimal climate comfort.

CYCLING PADDINGS

PADDING: GOLD

This is our most sophisticated padding, which with extreme anatomical construction provides more riding comfort due to perfect body alignment to the pedalling movement, 3D light mesh ensures additional breathability and the Air Plus fabric guarantees you enjoyable rides due to the superb moisture management.

PADDING: SILVER

ODLO Silver padding is the best combination of comfort and stable support. Featuring increased ventilation, the silver padding boasts a high density and peerless moisture management, making it ideal for long-distance rides.

PADDING: BRONZE

ODLO Bronze padding provides an all-around support level for all kinds of athletes and activities, including road, city and Mountain biking.
